

If you are like most of us you probably have hundreds of pictures that are sitting in boxes and drawers collecting dust and possibly fading away. You know you want to do something with them but the job seems overwhelming and you just don't know where to start.

Hooper Camera has a solution to this problem. Our Fill The Box Print Scanning service is designed to save you time, money, and effort while providing you with high quality 300dpi digital scans of all those neglected pictures.

This is the easiest and most affordable way to save the generations of photos you have stored in boxes around the house. Because your photos never leave our store you can feel confident that your irreplaceable photos are safe, and of course you get your originals back when your order is complete!

PREMIUM PLUS | \$199

2,000 Prints Scanned at 10¢ per print scan!

DELUXE | \$130

1,000 Prints Scanned at 13¢ per print scan!

BASIC | \$75

500 Prints Scanned at 15¢ per print scan!

Every Package Includes Your Choice Of A Master CD or DVD
Choosing a CD may require multiple discs to fit all JPEG photo files.

Additional copies of discs can also be purchased for only \$5 per CD or \$10 per DVD.

It's as easy as 1, 2, 3!

1. Collect and prepare your photos.

Take our box and fill it up with as many photos as you can for us to scan.

- Remove all prints from albums, photo frames, envelopes, or shoe boxes.
- Remove tape, staples, paper clips, glue or other attachments like scrapbook décor.
- Sort your photos by size, keeping vertical and horizontal photos separate.
- We recommend using rubber bands for every 150 – 200 photos of the same size.
- Photos larger than 8x10, 8x12, to a maximum size of 8.5 x 14 may be placed in a separate envelope.
- Photos must not be mounted on a hard card, they must be able to bend through 180 degrees.

2. Complete the Order Form.

- Review the enclosed information sheets and complete the Fill The Box Order Form, check any additional services you would like added to the standard service.
- Place the completed Order Form inside the box, on top of your photos.

3. Submit your prepared photos for scanning.

After completing steps 1 and 2 bring the box back to us to any of our store locations, and we'll do the rest.

OR.....Mail us your box via USPS to: **HOOPER CAMERA LABS**
21902 Devonshire St.
Chatsworth, CA. 91311

ORDER FORM

Note to Customer:
Please place this form inside the box, on top of your photos.

REQUIREMENTS & HOW TO PREPARE YOUR PHOTOS FOR FILL THE BOX SCANNING:

- Photos must be a minimum size of 2 ½ x 3 ½ wallet up to 8 ½ by 14 inches.
- Photos must be stacked smallest to largest and be facing upright.
- Photos must not be mounted on a hard card, they must be able to bend through 180 degrees.
- We recommend bundling your loose photos in stacks of 150 — 200 with rubber band rather than bags to avoid shifting in transit.
- Flatbed scans are made for pictures that are not suitable for our Fit The Box scanning equipment, and may require an extra fee. This includes pictures that are mounted or stiff backed, odd sizes such as ovals, cracked or damaged, or anything larger than 8.5x14.

HOW THE PROCESS WORKS

- We receive your box of photos.
- They are loaded into our scanner in batches.
- Our industry leading Kodak photographic scanner scans the photos at a resolution of 300 dpi, and stores the images on our computer.
- Images are then mastered to a CD or DVD.
- We send you back your photos and new digital media.

IMPORTANT:

- Only pictures are accepted for this specific service.
- No negatives or slides can be included with your order.
Please ask us for information about our negative and slide scanning services.

For bulk scanning, photos must range anywhere in between a wallet size (2.5x3.5) to an 8.5x14. Remove all photos from albums, envelopes, etc. Make sure there are no staples, paper clips or anything else attached to them. WE CAN ONLY PROCESS LOOSE PHOTOS FOR BATCH SCANNING. Pictures in albums or mountings will have a special handling fee of _____. If there is any tape, glue or other materials that might impede the scanning we may not be able to process that photo through our batch scanner. If the photos are too thick, or for other reasons cannot be scanned, we will separate those images and offer to scan them individually at our regular scanning prices. Photographs must be able to slightly bend with little or no effort. Aged and delicate photos may be scanned individually at our regular scanning prices.

Photos will not be in the same order you brought them in upon scanning completion. If you'd like your photos to appear in the same order you brought them in, there will be an extra charge of _____.

Notice: High-speed photo pricing is based on volume - the more you have to scan the cheaper the price per scan. There is no refund for high-speed photo scans and you must understand and agree that we cannot guarantee the image quality of the reproductions or individual quality control your files due to the extreme high volume scanning operation. These high-speed scans are designed to digitally preserve your regular photos. The resolution will be good enough for making prints slightly larger than your original photo. This is not designed to archive professional images with museum-quality clarity. However, we do provide high-quality, high-resolution scans, please ask us about pricing on this service.
